

Plastics & Composites

Across 3 Steps of Industry Chain

LIMITED TIME OFFER

Design Verification and Simulation

● Computer Aided Engineering (CAE)

- Mold Flow Simulation
- Heat and Fluid Simulation
- Mechanical Analysis
- Dynamic Structural Analysis
- Structural, Dynamic and Motion
- Robotic Simulation
- Customised Machine Simulation
- Production Line Simulation
- Product Structure Optimisation

Leverage the exclusive chance to enjoy HKPC's services.

e service@hkpc.org

Promotion period starts from now until 31 December 2019.

Terms and conditions apply.

3D Prototyping and Small Batch Manufacturing

● Material Blending

(Degradable/Functional Plastic Extrusion)

● Diffusion Bonding

- Conformal Cooling Tool Design & Production
- 3D Printing, 3D Scanning, 3D Modelling

Product Testing

● Mould Trial (Injection Moulding)

- Composite Part Development
