Total surplus for the year amounted to $61.9M after setting aside a provision of $11.8M for Variable Pay (VP).

3. referred to the underspending in staff emoluments in the past few years and said that while the vacancy situation was understood to be a contributing factor, the coming budget exercise for 2019/20 should aim at making more realistic projections to narrow the gap between the budgeted and actual figures for this expenditure item. In response, said that the matter would be given attention in preparing the next year’s budget for submission to the Council in November 2018, having regard to staff turnover and business needs of the organization.

4. IV. **Authorized Signatories for HKPC’s Bank Accounts (F.C. 5/2018 Revised)**

5. Invited by the Chairman, introduced the paper and briefed Members on a proposal to update the overall authorized signatories for HKPC’s bank accounts following the recruitment of Director of Business Development, Mr. Edmond Lai, who reported for duty on 3 July 2018 and the retirement of Secretary to Council in May 2018.

6. After discussion, Members endorsed for the Council’s approval the proposal outlined in paragraph 4 of the paper.

7. Invited by the Chairman, introduced the paper which set out the financial performance of HKPC for the period from April to June 2018. During the period, HKPC’s total fee income was $104.4M, meeting 96% of the budget. Value added was $66.6M or $1.8M (2.8%) more than the budget. Total expenditure was $100.7M, or 13.7% less than the budget. Overall, there was a surplus of $19.7M, which was more than the budgeted surplus by $17.9M. As at June 2018, the balance of the provision for staff annual leave was $5.9M, with a 30.1% reduction from the level in June 2017. The balance of the number of staff annual leave days with financial implication was also reduced from 4,835 in June 2017 to 3,315 in June 2018, or by 31.4%.

8. Continuing, said that the 2018/19 first quarter financial result was prepared based on the Hong Kong Financial Reporting Standard 15 (HKFRS 15) adopted in April 2018. Bridging of the 2018/19 first quarter financial result by using the 2017/18 income recognition principle showed that better performance was achieved, with external income and value added in the first quarter in 2018/19 increased by $0.8M (or 0.7%) and $2.2M (or 3.9%) respectively over that of the same period in 2017/18.

9. said that the Management had adopted a new approach to monitor business performance, based on monthly targets derived from a straight-line allocation of the annual budget. The objective was to minimize the impact of seasonal factors and hockey stick effect at year-end. With divisions taking a closer control of project delivery progress, this approach had yielded positive result as seen in the value added percentage which hit the milestone of surpassing target in the first quarter of 2018/19. In the
second quarter of the year, the team would focus attention on the external income aspect to catch up and boost the overall financial performance.

10. cautioned that escalating trade tensions in the market would weigh on SMEs which were more susceptible than their more established counterparts to the fallout from tariffs levied on Mainland goods. In response to ’s enquiry about HKPC’s business outlook, said that the impact of tariff concerns had not been noticeable yet but HKPC would closely monitor Mainland’s trade relations with other countries and the impact on HKPC’s business performance. At the same time, HKPC would be prepared to provide the needed support to help industries, especially SMEs, in difficult times.
