

## Your All-round Productivity Partner since 1967

As your catalyst to growth, the Hong Kong Productivity Council (HKPC) helps you grow your business and move up the value ladder from manufacturing to design innovation and original brand building.

Established by statute in 1967, the Hong Kong Productivity Council (HKPC) is a Government-subsidized organization dedicated to support Hong Kong manufacturers, service providers and SMEs (Small and Medium Enterprises) to achieve excellent productivity, thereby enhancing their business competitiveness and sustainability.

With about 300 professional consultants and multi-disciplinary expertise, backed by our advanced manufacturing support and testing facilities, we provide a unique one-stop service platform to help individual enterprise and industry sectors in business innovation and technology development, enabling them to acquire new capabilities to access high value-added market, ultimately enhancing the global competitiveness of Hong Kong industry.

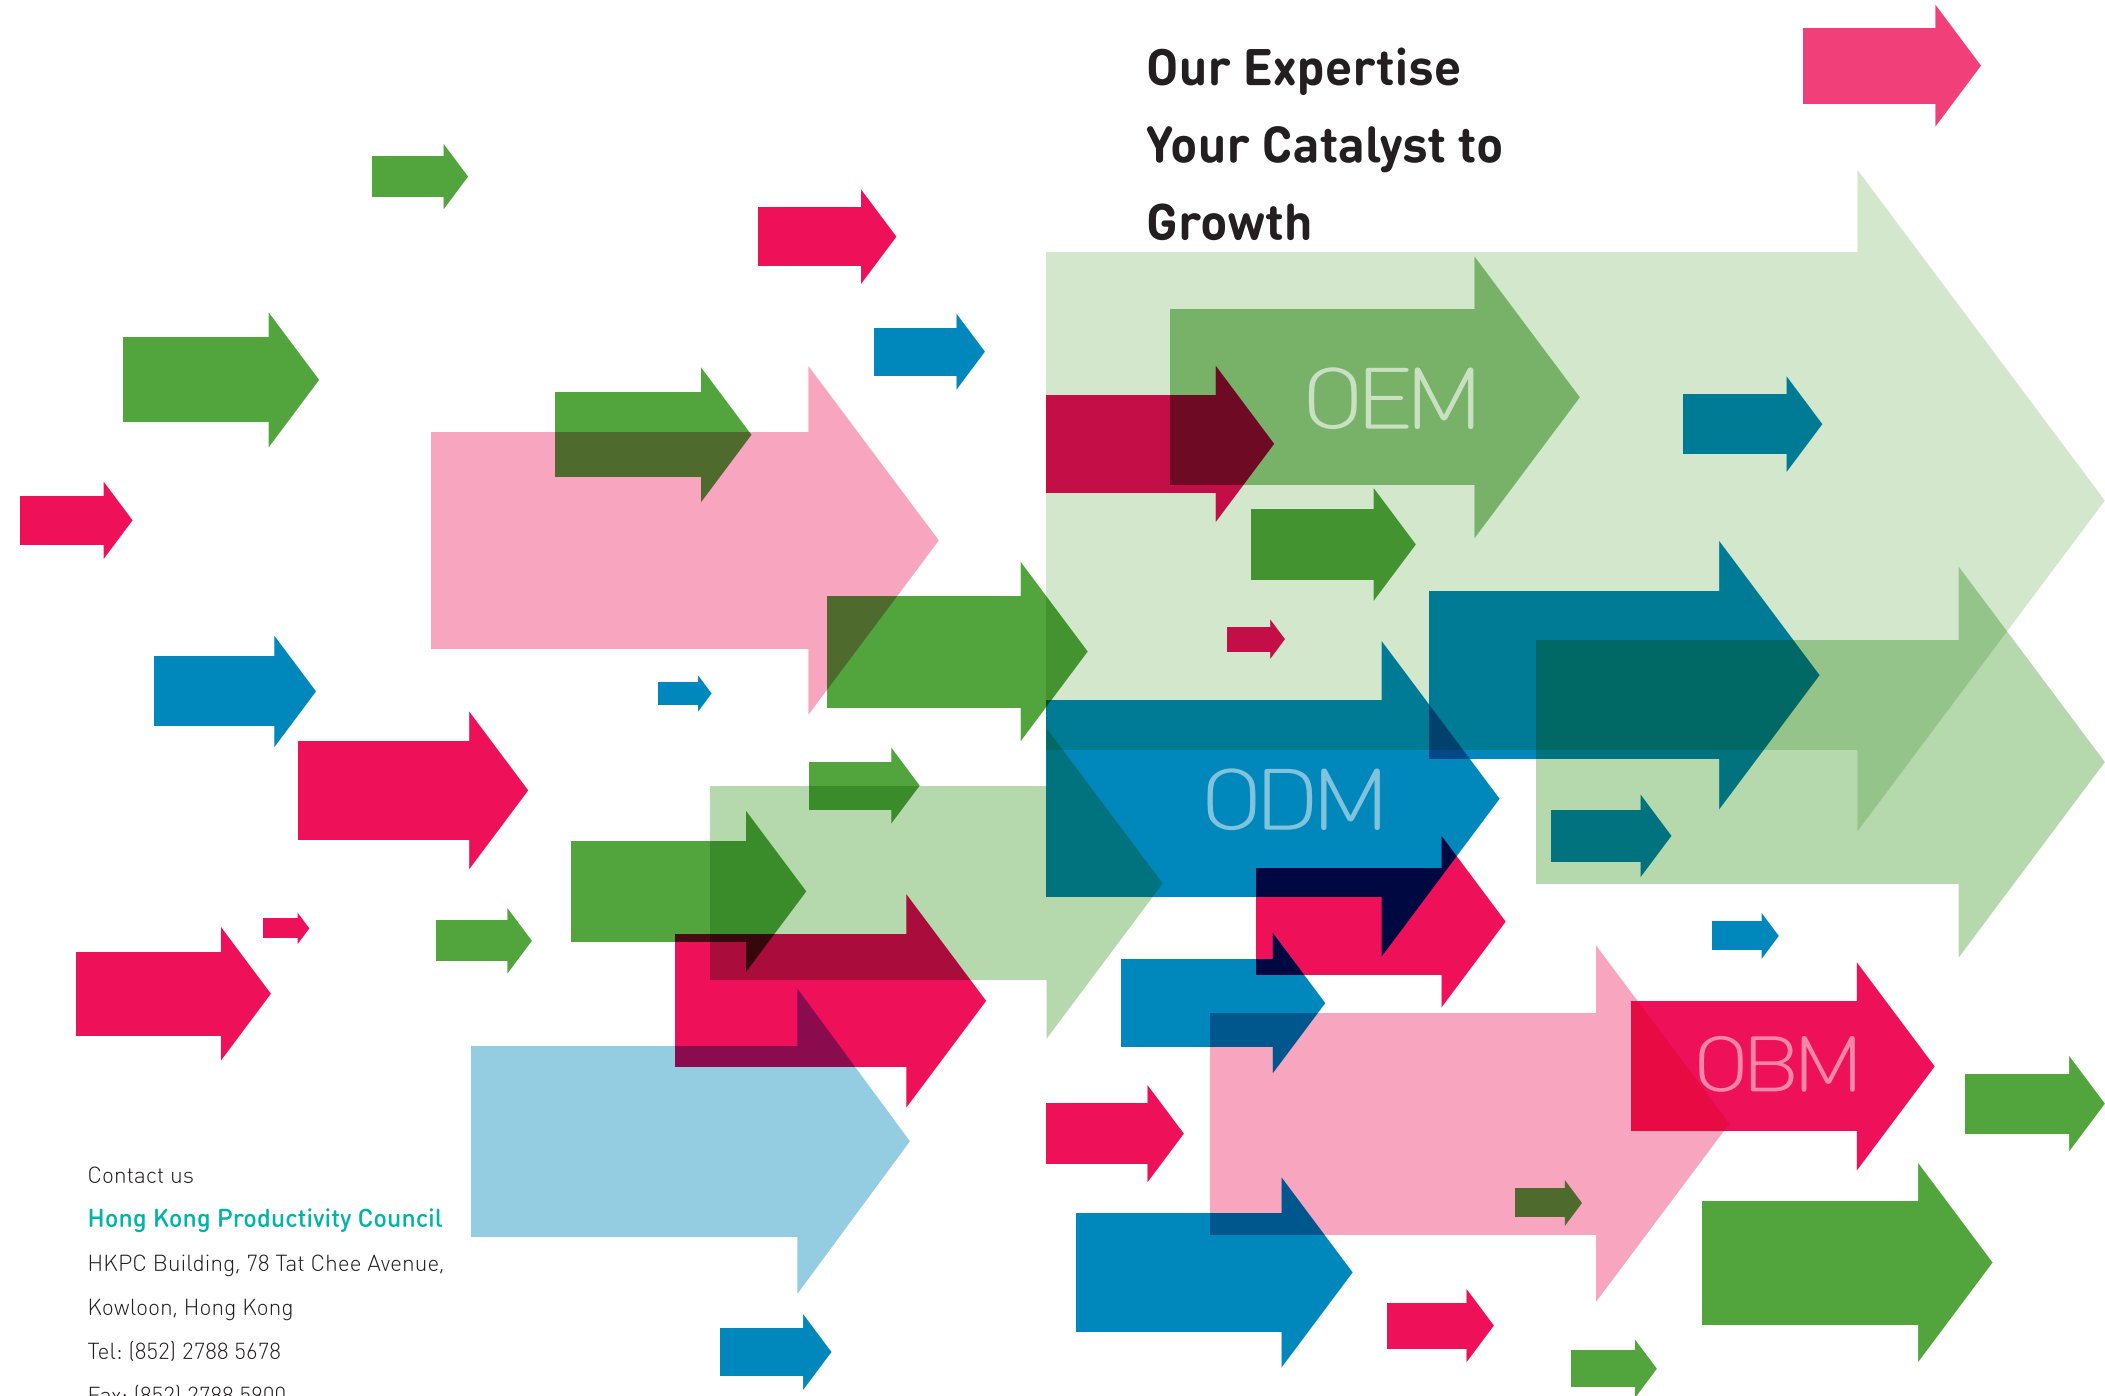

The two-toned parallel lines forming the Corporate Identity (CI) of HKPC signify our longstanding partnership with Hong Kong industry through rain or shine. Incorporating HKPC's original emblem, with a contemporary touch, the CI highlights our tradition of excellence in professional services for the industry.

All-round Productivity Partner  
全方位企業伙伴

# OEM

**Enhance Efficiency and Go Green**

By developing tailor-made automation systems, optimizing business and manufacturing processes and implementing cleaner production, we can help you reduce cost, improve efficiency, enhance quality and minimize your carbon footprint.

- Advanced Manufacturing Technology
- New Materials Processing
  - Nano-scale
  - Single Point Diamond Machining
- Micro Fabrication
- High Precision Multi-axis CNC Machining
- Advanced Diecasting**
- Advanced Surface Finishing
- One Piece Flow & Efficient Production
- Lean Manufacturing
- Process Improvement
- Automation System Development
- Information Technology Management
- Management Automation
- Enterprise Resource Planning
- Manufacturing Management Systems
- Cleaner Production
- Green Dyeing and Finishing Technologies for Textile and Garment Industry
- Low Carbon Manufacturing
- International Standards Compliance

# ODM

**Innovate and Grow**

With a host of design innovation services spanning the entire product development cycle from intellectual property management, precision tooling to compliance testing, we can help you develop novel products faster and acquire necessary know-how and qualifications to access new industry sectors with high growth potential.

- Intellectual Property Management
- Innovation Trend Analysis
- Product Design Planning
- Patent Mapping
- Electronics Product Design
- Innovation Management
- 3D CAD/CAM/CAE System
- Precision Tooling Development
- Rapid Prototyping
- Eco-design
- Environmental and Product Regulation
- New Materials Application
- Materials Composition & Properties Evaluation
- Product Reliability and Compliance Testing
- Highly Accelerated Life Testing (HALT)
- High Reliability Reflow Simulation System
- Multi-functional EMC Chamber
- EN 55022 EMC Testing
- High Value Added Product Development
- Optics & Optomechanics
- Automotive and Aviation Parts
- Medical Devices
